

HS: 15394 “The house next door”: EU foreign policy and the European neighbourhood

Tuesday 16.00-18.00
Ihnestr. 56

In this course we will examine the major political and economic issues that affect the EU’s relations with its neighbouring regions to the East and South. While the course deals principally with European foreign policy the aim is to identify the core interests of actors inside and outside the EU and to assess how these interact in the institutional settings created to manage relations in the neighbourhood.

Students will assess various aspects of the European Neighbourhood Policy and the Euro-Mediterranean Partnership. Themes include the EU foreign policy making process and the development of the ENP, economic relationships in the neighbourhood and the Euro-Mediterranean Free Trade Area, regional security relationships, migration issues and democracy promotion.

This seminar will be taught in English.

Requirements for credits*:

Apart from regular and active participation in the course, students wishing to get a credit should complete the following assessment items:
